AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 20th day of March, 1897.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL
IN COUNCIL.

WHEREAS the regulations governing the issue of licenses and permits to cut timber in Manitoba, the North-west Territories, and within the railway belt in the Province of British Columbia, established by the Governor in Council, provide that a settler having no timber of his own may upon application obtain a permit to cut such quantity of building timber, fencing timber, or fuel, as he may require for use on his land, not exceeding the following:

1. 1,800 feet of building timber, no log to be over 12 inches at the butt end.
2. 400 roof poles.
3. 2,000 poplar fence rails, no rail to exceed five inches at the butt end.
4. 30 cords of dry wood.
5. Burnt and fallen timber of a diameter up to seven inches inclusive, for fuel or fencing.

And whereas it appears from reports received from Crown Timber Agents that the quantity of timber now allowed to a settler free of dues, is not sufficient to erect all the buildings which are required by such settler on his farm,—

His Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the quantity of green timber which may be cut by a settler under permit as above set forth be increased from 1,800 to 3,000 lineal feet; that no restriction be made as to the diameter of the burnt or fallen timber, which may be taken for building purposes; but that the diameter of this class of timber to be used for fuel and fencing shall not exceed seven inches inclusive.

Clerk of the Privy Council.
